Chemical Storage Buildings / Containers

Environmental Product's Chemical Storage Buildings offer the highest quality and the best available technology to provide safe chemical storage and storage of other hazardous materials. Sized for capacities from 5 through 44 drums, these storage units feature modular construction and riveted design, allowing for quick assembly and delivery.

A Containment System

- Completely portable
- Durable, high quality, high strength steel construction
- Hazard labeling
- Easy under floor visual inspection
- Static grounding
- **2-year manufacturer's warranty**

Common Applications

Common solution for:

- Regulatory compliance
- Security
- Secondary containment
- Limiting personal and property liability
- Employee production
- Improved public image

Capacity / Size
