Chemical Storage Cabinets

Environmental Product's Chemical Storage Buildings offer the highest quality and the best available technology to provide safe chemical storage and storage of other hazardous materials. Sized for capacities from 5 through 44 drums, these storage units feature modular construction and riveted design, allowing for quick assembly and delivery.

A Containment System

- Completely portable
- Durable, high quality, high strength steel construction
- Hazard labeling
- Easy under floor visual inspection
- Static grounding
- **2-year manufacturer's warranty**

Common Applications

Common solution for:

- Regulatory compliance
- Security
- Secondary containment
- Limiting personal and property liability
- Employee production
- Improved public image
