

Options for Electric Model Sahara Hot Boxes (pg. 1 of 2)

1.) Outdoor package:

Prepares the oven for outdoor use. Includes a rain shield above the door, all exterior seams caulked, door hold-open devices, an additional coat of paint, and NEMA-4 control enclosure.

2.) Door switch:

Will shut down heating elements and blower when doors are opened.

3.) Programmable timer:

Automatically starts up and shuts down the Hot Box at a predetermined times.

4.) Batch timer:

Automatically shuts down the Hot Box after a certain number of hours.

5.) Vent with Damper:

Provides a means to exhaust the oven. Features a manual damper _____ that can be opened after the heating process has finished. Can be piped to in-plan scrubber system or the outdoors.

6.) Interior Safety Door Mechanism:

Interior door handle that will allow door to be opened from inside the Hot Box.

7.) 5-Year Warranty:

Add 3 years to the standard 2 year warranty. All defective parts will be replaced at no charge to customer (defective parts must be returned to Benko Products)

8.) Drain with valve:

Allows the spill containment pan to be drained. If a drain is not provided, the contents of the spill pan can be removed by a vacuum or mop.

9.) Hose Access Port:

Allows hose access, with door for easy connectivity. _____

Options for Electric Model Sahara Hot Boxes (pg. 2 of 2)

10.) Custom exterior finish:

Ideal for corrosive atmospheres or outdoor use. Includes a two-part epoxy primer with a urethane finish.

11.) Additional heights:

Increases the interior height clearance of the oven to accommodate tall loads. Ideal for totes and IBC's.

12.) Crating:

Added protection for shipping ovens overseas. Crate can be heat treated to ensure it meets shipping regulations.

13.) Leveling legs:

Adjustable legs to assist in leveling the oven on uneven flooring. Oven must be perfectly level for the doors to align properly. Leveling can also be done by shimming the bottom of the oven.
