

Chemical Storage Buildings / Walk-Ins

E.P.I. Chemical Storage Buildings provide safe Chemical and Hazmat Storage solutions for a variety of industries and applications. With standard models from 8' to 40' long, our Buildings are also fully customizable to meet your needs. "Built-to-last", these heavy-duty storage buildings are designed to meet or exceed OSHA, EPA, and NFPA standards.

Hazmat & Waste Storage

- Designed to meet or exceed EPA, OSHA and NFPA guidelines
- Heavy gauge steel construction
- Raised spill containment sump
- Passive or powered ventilation
- 4-Hour fire rated, 2-hour fire rated, or Non Rated models
- Customizable for various uses

Common Applications

- Chemical, hazardous materials and waste storage and isolation
- Safe storage for flammables
- "Class 1" material handling
- Additional outdoor storage
- Temperature controlled, safe storage (ie. Lithium Battery Storage, Paint, Pesticides, Etc.)

Capacity / Size

See page 2 for a complete chart of standard models / specs

- Standard models up to 40' long
- Capacity up to 76 drums
- Custom dimensions available

Standard Features

- Non-combustible, heavy-gauge steel walls, roof and sump pan
- Passive ventilation standard
- Meets or exceeds required spill containment sump capacities
- Pressure-treated, wood beam supports for no ground-to-metal contact- Grounding kit included
- Built-in forklift pockets w/ 4" risers for easy placement and inspection
- Includes hazard labeling / placards

Available Options

- 4-Hour or 2-Hour Fire-Rated, or Non-Rated models available
- Dry Chemical fire suppression system (UL-FM) or tie-in sprinklers
- Adjustable, steel shelving
- Interior or exterior lighting (UL)
- Powered exhaust fans (UL)
- Partition wall(s)
- Loading ramps
- Fiberglass grating
- "Explosion Relief Panels" for use with Class 1A and 1B flammables
- Electrical options (UL) for use in "Hazardous Locations"

Optional Heating and Cooling

- Insulated models available with Heating and / or Air Conditioning
- "Explosion Proof" electrical options for storing / handling "Class 1." (UL)
- System sizing available for a variety of applications, environments or temperature range requirements

Ships Completely Assembled

If necessary, connect electrical supply
